

JASON SAFFORD

Develop Your Green Mind

Distraction is the biggest challenge for leaders today. It creeps into everything and can overwhelm even the most successful organization. **Keeping your people focused on the Big picture** is even more challenging with distraction ever present and looming. So how do you achieve that next level of success, where you, your people, your organization are all aligned on the same goals and dreams **without distraction**?

This is what we do at Jason Safford, LLC all day, every day. Our **Green Mind Methodology** helps your entire organization eliminate distraction to work together and achieve the bigger goal - to impact the world in a big and positive way. Our focus is on how to deliberately grow leaders within your organization to create this change. Our results are sustainable and deliver **higher productivity, more engaged employees, and increased profitability**.

With more than 25 years business experience, Jason is currently owner and/or partner in more than 20 operating companies including Jason Safford, LLC, which provides speaking, coaching and consulting services. Additionally, he has helped over 300 entrepreneurs, startups, small to mid-sized businesses and larger corporations successfully pursue their vision and goals over his career.

As a nationally recognized speaker, thought leader and author of two books, Think Green - The Future is Awesome and Sun, Sand and Salt - The collected writings from a Green Mind, Jason aims to proactively influence the path of existence toward a more positive, sustainable direction. **Jason is personally responsible for overseeing the strategy implemented for every client** and is available for keynote presentations, full-day workshops and seminars, and ongoing consulting, coaching and mentoring.
